

**Beaverton Rural Schools**  
**Fall Pupil FTE Counts - AUDITED**  
**1999-2018**

<u>Year</u>	<u>FTE</u>	<u>Difference</u>
1999	1,790.00	
2000	1,810.00	20.00
2001	1,803.00	(7.00)
2002	1,749.14	(53.86)
2003	1,665.36	(83.78)
2004	1,591.06	(74.30)
2005	1,493.57	(97.49)
2006	1,462.00	(31.57)
2007	1,395.00	(67.00)
2008	1,384.09	(10.91)
2009	1,357.97	(26.12)
2010	1,399.76	41.79
2011	1,328.00	(71.76)
2012	1,322.36	(5.64)
2013	1,241.84	(80.52)
2014	1,184.72	(57.12)
2015	1,156.00	(28.72)
2016	1,089.88	(66.12)
2017	1,019.26	(70.62)
2018	989.36	(29.90)

**Notes:**

High FTE	2000	1,810.00
Low FTE	2018	989.36
Difference		
Avg Loss/Year		40.03

The State of Michigan's demographer projects a significant decrease in the number of school-age children in Michigan. Michigan's K-12 school-age population will decrease by more than 100,000 by 2024. Michigan will not see population similar to our current 2018 level of 1.54 million until 2040, when millennials begin to have children.
